

*A convenient and reliable way to connect people to opportunities.*

The Schuylkill Expressway is America's **9<sup>th</sup> most congested** roadway.

Upper Merion Township is experiencing **considerable growth** and new development.

Better **transit options** to King of Prussia are being explored and planned.

## Here's What the KOP Rail Project Has to Offer You:

- KOP Rail will extend the Norristown High Speed Line (NHSL) to key destinations in King of Prussia, replacing unreliable bus trips with travel on a line that currently has a **99% on time performance ratio**
- Connects the three largest employment centers: Center City, University City and King of Prussia
- **Convenient access** to medical centers, educational institutions, shopping, dining, and entertainment
- Current development needs will be met, while preparing the community for future planned **growth**
- **Accommodating the changing mobility needs** of seniors, people with disabilities, and millennials
- Significant **reduction** in overall commute time between King of Prussia and Philadelphia
- Rail service will increase commercial real estate values, leading to more local tax revenues
- Easy access to public transportation can **increase home values** and marketability
- Avoid the hassles of traffic congestion, lack of parking, and extra cost
- Reduced auto travel and traffic congestion will **promote** and **strengthen quality of life** in the region
- Strong **return on investment**; every \$1 invested in public transportation generates approximately \$4 in economic benefits return on investment
- An **annual reduction** of up to 18 million automobile VMT (Vehicle Miles Traveled)
- Lower emissions which help **improve regional air quality**
